Scania Range

Our product range extends day by day.

We are very proud to announce that Scania trucks' and buses' clutches are ready.

We are offering original equipment quality with affordable price.

These kits are designed and manufactured at our factory under Dönmez brand guarantee.

Hammer Kupplungen is very pleased to introduce new family members.

These new family members replace clutch which is fitted as standard to not the Scania trucks 2, 3 and 4 models, but also Scania bus models, details can be found in following tables;
